## EMR Systems and Marketing Needs

The Physicians Strategy Group (PSG) is pleased to offer the Financing Solutions service line to the USPI Physician Network. With rapid changes in practice structure, acquisitions and the way in which physicians practice medicine, many physicians need solutions and guidance on how to finance their own needs and the needs of their practices. The objective is to achieve their strategic outcomes for both their professional and personal goals. Obtaining financing can be time consuming, frustrating and costly. A poorly structured solution can hinder the desired outcome for years.

The Physician Strategy Group, working with a trusted financial partner, is able to offer a wide range of financing solutions structured by finance professionals who have many years of experience in the health care and banking industries. You will deal with professionals who understand your needs and know financing. This team approach allows physicians and practices to be confident that their financial goals and needs are being handled by trusted partners who have the physician's interest in mind.

### SPECIFIC FINANCING SOLUTIONS WE CAN PROVIDE INCLUDE:

- Provide a turn-key confidential solution for obtaining financing
- Loans to purchase equity shares in surgery centers
- New equipment for additional services
- Tailor loan amounts and structure to meet physician's needs
- Remodel and upgrade facilities
- Finance new partners buying into practice
- EMR and billing software upgrades
- Working capital during transitions, expansion or A/R needs

**Next time you have a financial need for you or your practice, call PSG for assistance or directly to Physicians Financial Partners.**
